## Publication details

GIZ is a federal enterprise and supports the Federal German Government in achieving its objectives in the fields of international education and international cooperation for sustainable development.

GIZ's Evaluation Unit reports directly to the Management Board. It is separate from GIZ's operational business. This organisational structure strengthens its independence. The Unit is mandated to generate evidence-based results and recommendations for decision-making, to provide plausible verification of results and to increase the transparency of findings.

The Evaluation Unit commissioned the evaluation to external independent evaluators. The evaluation report was written by these external evaluators. All opinions and assessments expressed in the report are those of the authors.
